A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
U.S. SAVINGS BONDS

Barbara Pope Speaks To Deo Volente Class

The fruit of a Bee's labor is honey. The fruit of a Christian is another Christian. With June comes summer, and the Bee's are busy making honey. So it should be with a Christian. "Bee Wise, use the summer for the Savior" was the theme for the June meeting of the Deo Volente class of the First Baptist Church, at Fellowship Hall, Monday night. President Jane Younger urged the class to spend the summer "Bee-ing" busy about the Lord's business. After the worship part of the program and the business session, Mrs. M. P. Stanley introduced the guest for the evening, Mrs. Barbara Pope. Mrs. Pope, who is the Juvenile and Domestic Relations counselor for this area, spoke to the class on the importance of Christian training for a child, not only in Sunday School and Church, but in the home. Many things were brought out in her talk about the causes of delinquency and the fact that they could be cured by the influence of dedicated Christian parents. The evening was brought to a close with the singing of the hymn "Take My Life and Let It Be".

Stetson's Interest Shown To Be Books

DELAND—Stetson University students have proved that their main interests are books, not phone booth stuffings nor goldfish swallowing.

Some 1,200 students, faculty members, maids and janitors pitched in recently to move 100,000 books from the old library to the newly completed \$1 million library in seven hours. It seems they were in a hurry to get the books moved so they could put them back in use.

It's nearly final exam time on the Stetson campus, and the students did not relish being without library service. So they organized Operation Book Lift. IBM cards were issued which geared things so that as many as four continuously moving human chains were kept in action at all times. And the students set a world record in book moving.

President J. Ollis Edmunds and Dean Hugh McEntry, both in shirt sleeves, pitched in also to carry more than their quota of books.

County And FEC To Build RR Crossing

County Commissioners this week renewed effort to have rail crossing over the FEC railroad built on Hypoluxo Road and on County Line Road.

The board voted to ask the railroad if it would permit an outside firm to construct the crossing between Palm Beach and Martin Counties on county line road. Request for the crossing was made three years ago and the railroad said it is unable to do the work because of a current strike. The county line crossing is to be jointly financed by the two county boards and the FEC.

The board indicated that it would seek means of lowering speed limits of trains in the Boynton Beach-Lantana area if action is not taken to construct the safety crossing on Hypoluxo Road. The commission noted that the only precaution that can be taken other than safety gates, is to set a speed limit on trains.

Delta Looks For Good Summer Season

MIAMI—The approaching summer season will be as good as that of last year, Edwin H. Bishop, Miami district sales manager of Delta Air Lines, has predicted.

"As one indication, Delta's package vacation sales at this point are running slightly ahead of this time last year.

"Also, Delta is spending more money promoting Florida through spring, summer and fall than in any other previous years," Bishop explained, "and we confidently expect this will produce excellent results for the Sunshine State."

Delta's Florida budget, Bishop said, covers newspaper, magazine, television, radio and billboard advertising, plus brochures and other printed material, and spread out through the Midwestern and Southern regions Delta serves.

June Means Miss Florida Pageant

SARASOTA—June in Sarasota means the annual Miss Florida Pageant and the selection of the fortunate beauty that will represent the Sunshine State at the Miss America Pageant in Atlantic City in September.

This year the girls and their chaperones will start arriving at the Landmark Hotel on Lido Beach on June 21. The preliminaries begin Wednesday, June 24 on the stage of the Municipal Auditorium. Saturday night, June 27, is the big one. That is the night one of the girls will be crowned queen.

As the crown is placed on the queen's head, flashbulbs will pop, cameras will grind, the audience will applaud, and the new Miss Florida will flash a big smile as tears start rolling down her cheeks.

Goodwill Group To Work In Glades

Goodwill Industries, the hire-the-handicapped organization, has come to Palm Beach County.

Large, colorful blue-and-yellow Goodwill boxes have been placed on shopping center lots and other public places for the collection of, used, but usable, articles.

Clothing, small electrical appliances, household articles and other materials given to non-profit Goodwill, are repaired by its handicapped employees for resale in Goodwill stores. From the store sales come the wages for the handicapped; Goodwill being about 88 percent self-supporting.

Goodwill does not take newspapers, because of the fire hazard when stored around handicapped people.

A Goodwill truck will visit the boxes regularly to collect the donations.

Dr. R. C. Adair, Goodwill's executive director, who organized Goodwill in Miami and Orlando, plans Goodwill Industries for Palm Beach and surrounding counties; to employ handicapped and aged persons of this area.

Hope To Build Ag To Billion & A Half

GAINESVILLE—University of Florida ag men are confident that they can team up with industry and farmers to boom agriculture into a \$1.5 billion industry by 1975.

Plans to get the economy-boosting project underway were unveiled by Dr. E. T. York, Jr., university provost for agriculture, at a state-wide press conference here. York christened the venture DARE, which, when expanded, means Developing Agricultural Resources Effectively.

A significant expansion in the beef cattle industry, sugarcane and vegetables is expected, York said. One of the major problems agriculture will be confronted with in the next 10 years is to make better use of the land available for farming, since available farmland is expected to decrease by about 2 million acres in the state by 1975. York said that this decrease will be due primarily to an increase in urban land use.

York envisioned a big increase in the production and consumption of citrus. However, because of the possibility that production will increase faster than consumer demand, he predicted there would be little or no increase in total income from citrus.

Dr. York said the projection indicates that by 1975 Florida will be producing only about 40 percent of the beef and less than 10 percent of the pork consumed in the state.

The projected figures for agriculture and related income in 1975 take into account revenue from Florida's fast-growing horse industry, seed or turf industry and an expanding non-farm segment of the forest industry.

York pointed out that committees have been analyzing every agricultural commodity in the state. These committees will begin a series of nine conferences this week to discuss their findings.

Citrus, sub-tropical fruits, small fruits and nuts will be evaluated at the first of these meetings on Wednesday and Thursday of this week. Tobacco, sugarcane, vegetables, grain, oil seeds and fiber crops will be the topics for a conference on May 19-20.

Why should you buy

U. S. Savings Bonds when there are so many other good investments?

To help your country is one answer—and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money: either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a Bond or through regular purchase of Bonds at your bank.

Another unique advantage of U. S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, you'll hang on to your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment—as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever. Buy Savings Bonds. The banks or savings institutions that sell them don't charge you a penny for the service.

Keep freedom in your future with

Christian Science Group Of Canal Point

Highlights from the life of the Apostle Paul will be featured at Christian Science services Sunday in the Bible Lesson entitled, "God the Preserver of Man". Included will be Paul's words from II Timothy (ch. 4): "The Lord shall deliver me from every evil work, and will preserve me unto his heavenly kingdom: to whom be glory for ever and ever."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include this: "This history of Christianity furnishes sublime proofs of the supporting influence and protecting power bestowed on man by his heavenly Father, omnipotent Mind, who gives man faith and understanding whereby to defend himself, not only from temptation, but from bodily suffering" (p. 387).

Jehovah's Witnesses Attend 3-Day Meeting

Belle Glade delegates have returned home from a three-day assembly of Jehovah's witnesses held in Orlando, Florida. Delegates from 17 central Florida congregations attended the assembly and participated in the program of activities.

The witnesses provided for their needs by means of 22 volunteer service departments. Belle Glade delegates helped out in these departments and took part in the program. Miles P. Crum, local persisting minister, was in charge of the Lost and Found Department, a very active place where large groups of people gather.

Friday's activities consisted of a model Ministry School and Service Meeting at which Bible talks were given and instructive counsel received from Joseph Saia, minister, lecturer and traveling supervisor for the Watchtower Bible and Tract Society. Mr. Crum, local witness presiding minister, said that the model Ministry School was representative of the teaching program conducted in almost twenty-three thousand witness congregations world-wide. Such schools are attended by both young and old since all Jehovah's witnesses actively participate in the preaching activity. Crum added that witness children accompany their parents to five meetings each week and even participate to the extent that age and ability allow.

New ministers were baptized Saturday afternoon. Crum said, "When we make a dedication it is no trivial, frivolous thing. Where

dedication is concerned Ecclesiastes 5:4, 5 applies. When we dedicate ourselves to Jehovah God we are making a vow to serve him for life. Dedication to Him brings responsibility just as knowledge does, so, shirkers of responsibility and of the Word of God are not dedicating themselves to Jehovah.

The witnesses showed a two-hour, color film Saturday evening, "This film," produced by the Watchtower Bible and Tract Society brings the viewer face to face with some of the deep rooted causes for the serious decline in spirituality that has eaten into the very foundation of our modern society, and which accounts for the mounting immorality that is causing much

concern."

Highlight for Sunday was a keynote speech by Mr. Saia on the subject, "Facing Up To The Urgency of Our Times."

The members of the Belle Glade congregation enjoyed their assembly very much and benefited by the ministerial training that they received. Many points of instruction will be passed on to the local residents through home Bible studies, conducted by the witnesses, and meetings in their local Kingdom Hall, where "visitors are always welcome and no collections are taken."

Mr. and Mrs. Lee Shirley left Saturday for a week's vacation at Indian Rock Beach in Clearwater.

bell ringing observance, held for the first time last year, was originated by the Connecticut men, Eric Sloane and Eric Hatch.

Vincent H. Grocutt of Santa Barbara, Calif., Chairman of the Order's Grand Lodge Americanism Committee, in a letter to Exalted Ruler Tucker, urged cooperation in the observance.

"On July 4, 1964, bells will again sound throughout the land, proclaiming the joyous message of freedom," Mr. Grocutt said. "The support of your lodge is urgently needed to insure the success of

this program. Seek out the bells in your community and arrange for the ringing of them at the appointed hour on July 4th. Let's keep the custom of ringing bells on Independence Day."
